BE AN ARCHITECT IN BARCELONA

Feel what it's like to be an Architect!

Live the experience in a city of great Architectural history and richness. A two week workshop to Imagine, Design and Build in the area of Barcelona.

ROBOTICS

How can I make a robot social?

How can I make it feel emotions? How I can feed it with information through the connectivity to the social media? The near future is bringing robots to everyone's lives, and you might be an active player of this future. These robots are becoming social, which means that they are performing social behavior just like humans or animals do.

ANIMATION

Create your character!

Learn to move your own character, taking into account aspects such as modeling, animation, lighting and visual effects. Animation techniques can be applied in many settings, but mainly in production of series, application of digital visual effects and audiovisual content and videogames derived....
